

# Volunteer

The overwhelming need for housing in Los Angeles County has provided Habitat for Humanity of Greater Los Angeles (Habitat LA) with a unique opportunity to change lives in our neighborhoods. As a Habitat LA volunteer, you will not only make a difference with a day's work but also make a connection with a family or individual moving towards stability through homeownership.

## Volunteer opportunities include:

### Construction

No construction experience is required, just a willingness to learn and work hard! Our experienced construction on-site staff will teach you everything you need to know!

### Serve as a Site Host

Site hosts welcome and greet groups of volunteers as they arrive on our build sites and assist with the sign-in process.

### ReStore

Our home improvement thrift stores need volunteers to help run registers, load trucks, greet and help customers and prepare donated items for display.

### Office Administration

Volunteers are needed to answer phones, maintain databases, help with mailings and assist on various projects.

### Serve on a Committee

Committee members are on-going volunteers who perform the behind-the-scenes work critical to our local success.

### Special Events

We produce many special events through the year, so if you're known for your party planning skills, *we want you!*

### To Sign Up:

*“What stands out for me about Habitat is the ‘hands on’ feeling. You raise the money and make projects happen, then you can come down and build the houses yourself. You meet the families and they tell you about their living conditions now and how excited they are about their new homes. This is the kind of day that makes up for the days where you aren't as fulfilled. It just feels great.”*

*-Mike Shinoda, Musician, Linkin Park*
