

# 2019 VETERANS BUILD

## The Facts

In recognition of Veterans Day, Habitat for Humanity of Greater Los Angeles (Habitat LA) will host our annual **Veterans Build** on Friday, November 8, 2019, to honor the veteran community for their service to our country. This one-day, hands-on building experience will bring together nearly 150 volunteers and veterans working in partnership with The Salvation Army Bell Shelter, a comprehensive program that has served the community for over 30 years with interim housing and supporting services for military veterans who are experiencing homelessness. During the special build event, veterans, active military personnel and their families, government officials and individuals from corporations, faith-based organizations, and community groups will work alongside Habitat LA homeowners and future homebuyers to help **Build a Greater Los Angeles**.
