

Since 2004, Habitat LA's independently operated ReStores and donation centers have served the Greater Los Angeles community. Proceeds from sales have helped Habitat LA build, rehabilitate, and repair more than 1,000 local homes. Donating overstock and gently used products to the ReStores can help businesses liquidate surplus inventory, putting it back into the community for use, rather than have it end up in landfills. There is no cost to you to take advantage of our corporate donation services.

- **Donating to Habitat LA makes good financial sense for your business.** All donations are tax-deductible and brand-new items can be deducted at full retail value. With a scheduled appointment, we'll send professional drivers and a truck to your business, and pick up, free of charge, 7 days a week!
- **You will be supporting a community-based nonprofit.** Last year, Habitat LA built, rehabbed or repaired homes for families in greater Los Angeles. In addition, we directly served close to 900 individuals through our housing programs.
- **You will help families find affordable pathways to homeownership.** In 2021 we will begin work on 18 new homes, and a significant portion of our revenue comes from ReStore sales. Without new inventory (donations), we cannot support our vital housing programs.

Great Stuff, Great Cause, Great Price.

supports the
